

Plastic Bottle Lid Creatures

Simple but creative craft activity

You will need:

- A selection of colourful bottle top lids
- Googly eyes
- Permanent felt tip pens
- Coloured paper/cardboard
- Small pieces of thick cardboard
- Optional: magnets

Use your imagination to create all sorts of bugs, creatures and flowers from bottle top lids! Bugs, butterfly, ladybird spots, cats, Minions, unicorns, bats, tortoises, etc.

Glue in small squares of cardboard to 'fill up' the inside of the lid. Glue on coloured cardboard to create legs, wings, etc. but not too large or will make too heavy.

Optional: Glue a magnet on the back so it can stick to your fridge!
